EVOFIT MEALS BUSINESS VAULT

Nutrition Client Onboarding Pack

Dietary Questionnaires, Food Preference Surveys, Allergy Forms, and Welcome Sequences

EvoFit Meals

Dietary Questionnaires, Food Preference Surveys, Allergy Forms, Welcome Sequences, 30-Day Automated Drip, and Team-Based Onboarding SOPs

What This Is

This is everything you need to onboard a new nutrition client professionally at enterprise scale. It includes the complete set of intake forms, a video welcome script, a comprehensive FAQ covering 20+ questions, a family meal accommodation guide, a full 30-day automated onboarding email drip, and a team-based onboarding SOP so every coach on your team delivers the same experience.

Copy the templates, customize them for your brand, and use them every time a new client signs up. A structured onboarding process does three things: it collects the information you need to build an accurate plan, it sets expectations so the client knows exactly what to expect, and it signals professionalism that justifies your pricing.

Each template in this pack is ready to use. Adjust the wording to match your voice, add your branding, and send them out.

Template 1: Dietary Questionnaire

Send this immediately after a client signs up. It is the foundation for their meal plan. **Dietary Questionnaire** *Please complete this form as thoroughly as possible. Your answers directly shape your meal plan.* **Section A: Personal Information** FieldYour Answer Full name Email Phone Date of birth Gender Height Current weight Goal weight (if applicable) **Section B: Goals and Timeline**

☐ **1.** What is your primary nutrition goal? (Select one)

- [ ] Fat loss
- [ ] Muscle gain
- [ ] Improved energy and performance
- [ ] General health and wellness
- [ ] Sport-specific performance
- [ ] Medical/therapeutic (please specify: _____)

☐ **2.** What is your secondary goal, if any?

_____

☐ **3.** What is your ideal timeline for seeing results?

- [ ] 4 weeks
- [ ] 8 weeks
- [ ] 12 weeks
- [ ] No specific timeline — I want sustainable change

☐ **4.** On a scale of 1-10, how committed are you to following a structured meal plan?

1 (not very) ---- 5 (somewhat) ---- 10 (fully committed) **Section C: Current Eating Habits**

☐ **5.** Describe a typical day of eating for you right now. Be honest — this helps me understand your baseline.

- Breakfast: _____
- Morning snack: _____
- Lunch: _____
- Afternoon snack: _____
- Dinner: _____
- Evening snack: _____

☐ **6.** How many meals do you prefer to eat per day?

- [ ] 2 meals
- [ ] 3 meals
- [ ] 4 meals

Template 2: Food Preference Survey

Send alongside the Dietary Questionnaire. This ensures the meal plan includes foods they will actually eat. **Food Preference Survey** *The better I know your food preferences, the better your plan will be. No wrong answers here.* **Proteins — Rate each: Love / Like / Neutral / Dislike / Won't Eat** ProteinRating Chicken breast Chicken thighs Turkey Beef (steak, mince) Pork Lamb Salmon White fish (cod, tilapia, etc.) Tuna (canned) Shrimp/prawns Eggs Tofu Tempeh Greek yogurt Cottage cheese Protein powder (whey) Protein powder (plant-based) **Carbohydrates — Rate each: Love / Like / Neutral / Dislike / Won't Eat** CarbRating White rice Brown rice Pasta Bread (white) Bread (whole grain) Oats Potatoes Sweet potatoes Quinoa Couscous Wraps/tortillas Bagels Fruit (list favourites): **Vegetables — Rate each: Love / Like / Neutral / Dislike / Won't Eat** VegetableRating Broccoli Spinach Kale Green beans Peppers (bell) Carrots Zucchini Mushrooms Asparagus Cauliflower Tomatoes Onions Cucumber Avocado **Fats — Rate each: Love / Like / Neutral / Dislike / Won't Eat** Fat SourceRating Olive oil Coconut oil Butter Nuts (almonds, walnuts, etc.) Nut butter (peanut, almond) Cheese Seeds (chia, flax, pumpkin) **Cooking and Lifestyle**

☐ **1.** How much time can you spend on meal prep per week?

- [ ] Less than 1 hour
- [ ] 1-2 hours
- [ ] 2-3 hours
- [ ] 3+ hours
- [ ] I enjoy cooking and don't mind spending time

☐ **2.** How confident are you in the kitchen?

- [ ] Beginner (I can follow simple recipes)
- [ ] Intermediate (comfortable with most cooking techniques)
- [ ] Advanced (I enjoy cooking and experimenting)

☐ **3.** Do you have access to the following? (Check all that apply)

- [ ] Oven
- [ ] Stovetop
- [ ] Microwave
- [ ] Slow cooker / Instant Pot
- [ ] Blender
- [ ] Air fryer
- [ ] Grill / BBQ

☐ **4.** What is your monthly grocery budget? $_____

Template 3: Allergy and Intolerance Disclosure Form

This is a safety document. Use it with every client. Keep it on file. **Allergy and Intolerance Disclosure Form Client Name: _____ Date: _____**

Please indicate any food allergies, intolerances, or sensitivities you have. This information is critical for building a safe meal plan.

Known Allergies (anaphylactic or medically diagnosed): AllergenAllergy?Severity Peanuts[ ] Yes [ ] No Tree nuts (specify: _____)[ ] Yes [ ] No Shellfish[ ] Yes [ ] No Fish[ ] Yes [ ] No Eggs[ ] Yes [ ] No Dairy / Lactose[ ] Yes [ ] No Wheat / Gluten[ ] Yes [ ] No Soy[ ] Yes [ ] No Sesame[ ] Yes [ ] No Other (specify):[ ] Yes [ ] No **Food Intolerances or Sensitivities (non-allergic but cause discomfort):** _____

Dietary Restrictions (religious, ethical, or personal):

- ☐ Vegetarian
- ☐ Vegan
- ☐ Pescatarian
- ☐ Halal
- ☐ Kosher
- ☐ Other: _____

Current dietary supplements: _____

Medications that interact with food (e.g., blood thinners and vitamin K, MAO inhibitors and tyramine-containing foods): _____

Acknowledgment:

I confirm that the information provided is accurate to the best of my knowledge. I understand that [Your Name / Business Name] provides general nutrition guidance and customized meal planning, not medical nutrition therapy. If I have a medical condition requiring dietary management, I will consult with a registered dietitian or physician.

I will inform [Your Name / Business Name] immediately if my allergy, intolerance, or medical status changes.

Signature: _____ Date: _____

Important: Keep this form on file for every client. If a client reports a serious food allergy, take extra care to flag it in your EvoFit Meals client profile. The platform allows you to set dietary restrictions per client — use this feature for every allergy and intolerance reported here.

Template 4: Day-1 Welcome Email

Send this within 2 hours of a client signing up. Speed signals professionalism. **Subject:** Welcome to [Your Nutrition Service Name] — Here's What Happens Next

Hi [Name],

Welcome aboard. I'm genuinely excited to help you reach [their stated goal].

Here's exactly what happens over the next few days:

Today:

- ☐ **1.** You'll receive a Dietary Questionnaire (takes about 10 minutes)
- ☐ **2.** You'll receive a Food Preference Survey (takes about 5 minutes)
- ☐ **3.** You'll receive an Allergy/Intolerance Disclosure Form (takes about 3 minutes)

Please complete all three as soon as possible — the more detail you provide, the better your plan will be.

Within 48 hours of receiving your completed forms:

I'll build your first customized meal plan using EvoFit Meals. Your plan will include:

- ☐ [X] days of meals tailored to your goals and preferences
- ☐ Full recipes with step-by-step instructions
- ☐ Macro and calorie breakdowns for every meal
- ☐ A complete shopping list

At our first check-in ([date/time]):

We'll review your plan together, make any adjustments, and I'll walk you through the meal prep strategy for your first week.

How to reach me:

- ☐ For quick questions: [your preferred messaging method]
- ☐ For plan adjustments or concerns: [email or platform message]
- ☐ Response time: I aim to respond within [X hours] during business hours

One important note: Your meal plan is designed for your general health and fitness goals. If you have any medical conditions that affect your diet, please make sure you've shared those in your forms and continue working with your healthcare provider. I'm happy to coordinate with them if needed.

I'm looking forward to working with you. Let's make this the last time you have to figure out what to eat.

[Your Name]

[Your Business Name]

Template 5: What to Expect — Client Guide

Include this as a PDF or link in your welcome email. It sets expectations and reduces support questions. **What to Expect: Your Nutrition Service Guide Welcome.** This guide tells you everything you need to know about how your nutrition service works, what you'll receive, and how to get the most out of it. **What You'll Receive** DeliverableFrequencyFormat Customized meal planWeekly or bi-weekly (based on your package)Digital — accessible through EvoFit Meals Recipes with instructionsIncluded in every planStep-by-step with portions Macro/calorie breakdownEvery meal, every dayBuilt into your plan Shopping listEvery plan cycleConsolidated and organized by section Nutrition check-inMonthly (or as per your package)Video call, phone, or in-person Plan adjustmentsAs needed based on progressRequested through [your contact method] **How Your Plan Is Built**

Your meal plan is created using EvoFit Meals, a professional nutrition platform. Here's the process:

- ☐ **1.** I review your questionnaire, preferences, and restrictions
- ☐ **2.** I calculate your calorie and macro targets based on your goals, activity level, and body composition
- ☐ **3.** I generate a plan that matches your preferences, cooking skills, and schedule
- ☐ **4.** I review every plan personally before it reaches you — no generic output
- ☐ **5.** You receive the plan with full recipes, portions, and a shopping list

If something doesn't work — a recipe you hate, an ingredient you can't find, a day that doesn't fit your schedule — tell me and I'll adjust it. The plan should serve you, not the other way around.

How to Get the Best Results

- ☐ **1. Follow the plan for at least 5 full days before requesting changes.** Give your body and your routine a chance to adapt. Minor discomfort in the first few days (cravings, adjustment to new foods) is normal.
- ☐ **2. Prep what you can.** You don't need to prep every meal, but having 2-3 days of lunches ready to go dramatically improves adherence. Your plan includes prep-friendly meals for this reason.
- ☐ **3. Track your intake for the first 2 weeks.** Even rough tracking helps you build awareness of portions. After 2 weeks, most clients can eyeball portions accurately.
- ☐ **4. Communicate honestly.** If you skip meals, eat off-plan, or have a rough week — tell me. I'm not here to judge. I'm here to adjust. A plan that accounts for real life works better than a perfect plan you can't follow.
- ☐ **5. Ask questions.** There are no dumb questions in nutrition. If you don't understand why a food is in your plan, or you want to swap something, or you're confused about a recipe — ask.

What to Do If... SituationWhat to Do You hate a recipeMessage me — I'll swap it within 24 hours You can't find an ingredientSubstitute with something similar or message me for an alternative You're eating outChoose the closest match from your plan's macros. A photo of the menu helps — send it and I'll suggest the best option You're travelingLet me

Template 6: Video Welcome Script

Record this as a personalized 60-90 second video and send it alongside the Day-1 Welcome Email. Video builds trust faster than text. **[Video Welcome Script — record yourself, not a screen recording]**

"Hey [Name], it's [Your Name]. I just wanted to take a quick second to personally welcome you to [Service Name].

I've received your signup and I'm genuinely excited to work with you on [their stated goal — reference it specifically]. Here's what's going to happen.

First, you're going to get three short forms from me — a dietary questionnaire, a food preference survey, and an allergy form. They take about 15-20 minutes total. The more detail you give me, the better your meal plan will be from day one.

Once I get those back, I'll build your first custom plan within 48 hours. We're talking full recipes, macro breakdowns, a complete grocery list — everything tailored to you, not a generic template.

Then we'll schedule our first check-in to make sure everything is working and make any adjustments before you start your second week.

One thing I want you to know upfront: this is not a diet. I'm not going to restrict your food or make you eat things you hate. The plan is built around your life — your schedule, your preferences, what your family eats. If something isn't working, tell me and I'll fix it the same day.

I'm really looking forward to this. Fill out those forms and let's get started. Talk soon."

Filming tips:

- [ ] Film in natural light, face visible, casual but professional
- [ ] Keep it under 90 seconds
- [ ] Mention their name and goal — personalization converts
- [ ] Send via messaging platform or embed in the welcome email
- [ ] If operating at scale, record a general version and personalize the first 10 seconds per client

Template 7: Comprehensive FAQ — 25 Questions

Include this as a link or PDF in your welcome email and on your website. It reduces support messages by 40-60%. **Frequently Asked Questions: Your Nutrition Service**

Getting Started Q1: How quickly will I receive my first meal plan?

Within 48 hours of submitting your completed dietary questionnaire, food preference survey, and allergy form. If you complete the forms on Monday, you'll have your plan by Wednesday at the latest.

Q2: What if I don't have time to fill out the forms right away?

The sooner you complete them, the sooner your plan is built. That said, there is no expiration. Complete them when you can — but know that your plan clock starts when I receive the completed forms, not when you sign up.

Q3: Can I sign up for a specific start date?

Yes. Let me know your preferred start date and I'll time the plan delivery accordingly. This is common for clients who want to start on a Monday or after a vacation.

Q4: Do I need any special kitchen equipment?

No. All recipes work with standard kitchen equipment: stovetop, oven, and basic utensils. If you have an air fryer, Instant Pot, or slow cooker, let me know in your preference survey and I'll include recipes that use them.

The Meal Plan Q5: How many meals per day will my plan include?

This is based on your preference — most clients get 3 meals and 1-2 snacks. If you prefer 2 meals, 4 meals, or intermittent fasting, I'll build around that.

Q6: Can I swap meals I don't like?

Absolutely. Message me and I'll swap any meal within 24 hours. No limits on swaps. The plan should include food you enjoy eating.

Q7: What if I can't find an ingredient at my local store?

Let me know and I'll suggest a substitute or swap the recipe entirely. If a specific ingredient is consistently unavailable in your area, I'll remove it from all future plans.

Q8: Are the recipes complicated?

Most recipes take 15-25 minutes. I tailor the complexity to your cooking skill level (which you indicate in the preference survey). If you're a beginner, your plan will feature simple, minimal-ingredient recipes.

Q9: Will the plan include a grocery list?

Yes. Every plan comes with a consolidated grocery list organized by category (proteins, produce, dairy, pantry staples). It accounts for all meals in the plan so you can shop once and have everything you need.

Q10: Can I eat the same meals as my family?

Yes. I build plans with family-friendly meals wherever possible. The main difference is your portion sizes, which are calibrated to your specific calorie and macro targets. See the Family Meal Accommodation Guide below for details.

Nutrition and Results Q11: How soon will I see results?

Most clients notice changes in energy and digestion within the first week. Visible body composition changes typically appear by weeks 3-4. Measurable weight changes depend on your starting point and goal — I'll set realistic expectations at your first check-in.

Template 8: Family Meal Accommodation Guide

Send this to any client who lives with a partner, children, or roommates. It addresses the number one logistical objection to following a meal plan. **Family Meal Accommodation Guide** *How to follow your meal plan without cooking separate meals for your household.*

The Core Principle

Your meal plan is designed so that your household eats the same dinner. The only difference is your portion size and possibly a side dish. Nobody at the table should feel like they're eating "diet food" — because they aren't.

How It Works Meal ComponentYour VersionFamily Version Main proteinWeighed to your macro targetServed family-style, everyone takes what they want Starch/carb sidePortioned to your planServed in a bowl for the table VegetablesIncluded as specified in your planServed alongside — encourage but don't force Sauce/dressingMeasured if included in your macrosAvailable for everyone **Example Dinner Scenario:**

Your plan says: Grilled chicken thigh (180g), roasted sweet potato (150g), steamed broccoli (1 cup), with a tablespoon of olive oil.

What you cook: Enough grilled chicken for the family, a tray of roasted sweet potatoes, and steamed broccoli.

What happens at the table: You plate your portions according to the plan. Your partner takes whatever they want. The kids take chicken and sweet potato, skip the broccoli (predictable), and you add a side of pasta for them if they need more.

One meal cooked. Everyone eats. Your macros are hit. Strategies for Common Family Situations Picky kids: Keep your core recipe family-friendly and add a "kid-approved" side (pasta, bread, fruit). Your plan accommodates this by building the core dinner around universally accepted foods. **Partner who hates "healthy food":** The recipes in your plan are not health-food stereotypes. They include things like taco bowls, stir-fries, burgers (with quality ingredients), pasta dishes, and sheet-pan dinners. Show your partner the weekly menu — most are surprised by how normal the food looks. **Multi-generational household:** If you're cooking for parents or grandparents with different dietary needs (low sodium, soft foods, etc.), let your coach know during onboarding. We can build your dinners around a base recipe that accommodates multiple needs with simple modifications. **Roommates who share the kitchen:** If you're not cooking for others, this doesn't apply. But if you share groceries or cooking duties, let your coach know and we'll factor in shared ingredients and cooking schedules. **Meal Prep With a Family**

The biggest win for families: **batch prep proteins and carbs on Sunday, then assemble meals differently for each person throughout the week.**

- [ ] Cook 2 proteins (e.g., chicken and ground turkey) in bulk
- [ ] Cook 2 carbs (e.g., rice and sweet potatoes) in bulk
- [ ] Wash and chop vegetables for the week

Template 9: 30-Day Automated Onboarding Drip

Set up these emails to send automatically after signup. Each email reinforces the client relationship, delivers value, and reduces the likelihood of early drop-off.

Email 1 — Day 0: Welcome (sent immediately)

Subject: Welcome to [Service Name] — Here's What Happens Next

[Use Template 4: Day-1 Welcome Email above. Attach the dietary questionnaire, food preference survey, and allergy form.]

Email 2 — Day 1: Form Reminder

Subject: Quick reminder — your questionnaire is waiting

Hi [Name],

Just a friendly nudge — if you haven't completed your dietary questionnaire, food preference survey, and allergy form yet, now's a great time. They take about 15-20 minutes total, and the sooner I get them, the sooner your custom plan is ready.

Here are the links:

- ☐ [Dietary Questionnaire link]
- ☐ [Food Preference Survey link]
- ☐ [Allergy Form link]

Once all three are in, your first plan will be ready within 48 hours.

[Your Name]

Email 3 — Day 2: What Makes This Different

Subject: This isn't a diet. Here's what it actually is.

Hi [Name],

I want to set one thing straight before we get started: what I'm building for you is not a diet. It's not a 30-day challenge. It's not a list of foods you "can" and "can't" eat.

It's a nutrition system — designed around your life, your preferences, and your goals. Here's what that means in practice:

- ☐ **No banned foods.** If you love pizza, we work pizza in. If you need chocolate, we plan for it.
- ☐ **No impossible meal prep.** If you hate cooking, your plan will feature 15-minute recipes and no-cook options.
- ☐ **No perfection required.** I'm tracking your consistency over weeks, not policing individual meals.

The only thing I ask: give the plan an honest shot for the first 5 days before asking for changes. Your body and your routine need a few days to adjust. After that, we optimize together.

Excited to get started.

[Your Name]

Email 4 — Day 3: Plan Delivery

Template 10: Team-Based Onboarding SOP

This SOP is for program directors and lead coaches managing a team. It standardizes the onboarding process so every new client receives the same quality experience regardless of which coach handles them. **Nutrition Client Onboarding SOP Version:** 1.0 **Applies to:** All nutrition coaches, intake coordinators, and program directors **Purpose:** Ensure every new nutrition client is onboarded consistently, professionally, and within the committed timelines. **Scope:** From client signup through delivery of first meal plan and scheduling of first check-in. **Roles:** RoleResponsibility Intake CoordinatorSends forms, collects completed forms, creates client profile in EvoFit Meals, assigns to a coach Assigned CoachReviews forms, builds meal plan, delivers plan, sends welcome message, schedules first check-in Program DirectorMonitors onboarding pipeline, handles escalations, reviews quality of first plans **Timeline:** StepActionOwnerDeadline 1Client signs upSystem/SalesDay 0 2Welcome email sent with forms attachedIntake CoordinatorWithin 2 hours of signup 3Video welcome recorded and sentAssigned CoachWithin 24 hours of signup 4Forms completed by clientClientDay 0-3 (follow up if not received by Day 2) 5Client profile created in EvoFit Meals with all restrictions flaggedIntake CoordinatorWithin 4 hours of receiving completed forms 6Client assigned to a coach based on capacity and specialtyIntake CoordinatorSame day as profile creation 7Coach reviews forms and builds first meal planAssigned CoachWithin 48 hours of form completion 8Program Director reviews first plan for qualityProgram DirectorWithin 24 hours of plan creation (spot-check 20% of new plans) 9Meal plan delivered to client with personal messageAssigned CoachWithin 48 hours of form completion 10First check-in scheduledAssigned CoachAt plan delivery — check-in set for 7-10 days after delivery 11Automated drip email sequence activatedSystem/Intake CoordinatorDay 0 (triggered by signup) **Quality Standards:**

- ☐ Every first plan must be reviewed by the coach for accuracy before delivery — no auto-generated plans go out unreviewed
- ☐ Allergy flags must be double-checked: cross-reference the allergy form with the plan's ingredients
- ☐ The welcome message must include the client's name and reference their specific goal
- ☐ Forms that are incomplete must be returned to the client with specific guidance on what's missing
- ☐ If a client reports a medical condition on the questionnaire, the Intake Coordinator flags it to the Program Director before assignment

Escalation Triggers: TriggerEscalate ToAction Client forms not received within 72 hoursIntake Coordinator sends a reminder, CC's coachFollow up with a phone call if still missing at Day 5 Client reports medical condition requiring dietary managementProgram DirectorDirector reviews and determines if RD referral is needed before plan is built Client reports 3+ severe allergiesProgram DirectorDirector reviews the plan personally before delivery First plan not built within 48-hour windowLead CoachLead Coach builds
